Der Anhänger

WOM[®] - OUR ALL-ROUNDER.

Simply lower.

The WOM is a hydraulic retractable all-round transporter. It is perfect for construction up to three motorcycles or small car. To the WOM you are absolutely independent. Simply lower, ground level drive up and ready!

Lashing options.

To secure your cargo there are eight retractable lashing eyes and a variety of other lashing points around the WOM. Additionally you can use the central lashing rail from sturdy galvanized steel made of maximum safety.

Pictures are classic examples and partly contain accessories.

Innovation at the press of a button.

No matter whether it is by radio or electric remote control – the WOM lowers itself at the press of a button thanks to the 12 V hydraulic unit. It is the ideal companion for private and commercial use.

Range of accessories.

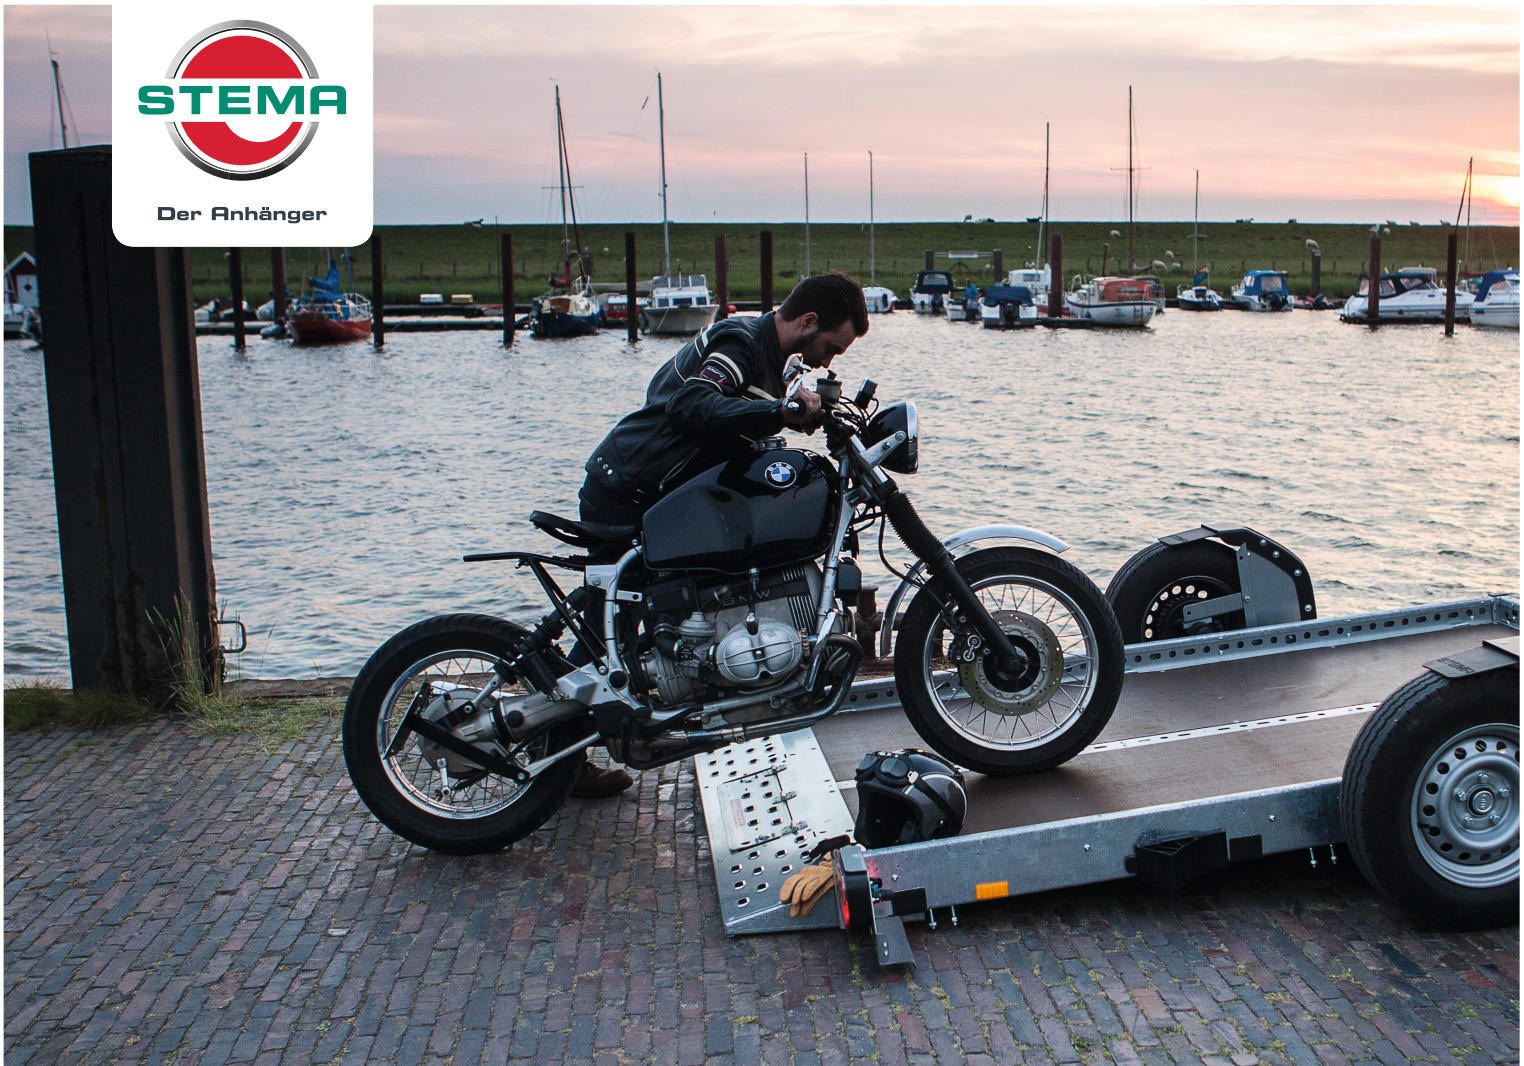

The extensive and universal accessories e.g. railings, side panels, high covers with high frame ensure the WOM is a real all-rounder. Further STEMA accessories can also be found at www.stema.de in our accessories shop.

The WOM is
GENTLEMAN.
He comes toward
you.

Der Anhänger

SURVEY OF ALL DETAILS.

WOM® - STANDARD EQUIPMENT

- ✓ **hydraulic hand pump**, for the **raising** and **lowering** of the **loading surface**
- ✓ bolted, **hot galvanised chassis**
- ✓ **welded frame** with integrated and **3-sided railing or side railing***
- ✓ **central lashing rail** on the loading area*
- ✓ **patented license plate holder**, can be **folded down** for improved loading
- ✓ **8 retractable lashing eyes**, integrated in the frame (fraction 400 kg per lashing eye, certified by DEKRA)*
- ✓ **overrun brake** and **automatic jockey wheel**
- ✓ **shock absorbers**, prepared for 100 km/h certification
- ✓ STEMA **safety V-drawbars** and a sturdy rubber **cushioned axle** for ideal road holding
- ✓ slip-resistant loading platform with waterproof **multi-layer wood floor**
- ✓ modern **multifunctional lighting** with **reverse** and **fog lights**
- ✓ **insertion options** at all corners, e.g. for a tarpaulin frame
- ✓ **13 pin plug** (EC-equipment)
- ✓ **2 chock blocks** with mounting bracket
- ✓ **2 mud flaps**

* depending on model ** WOM XT without lashing eyes

Entry ramp.

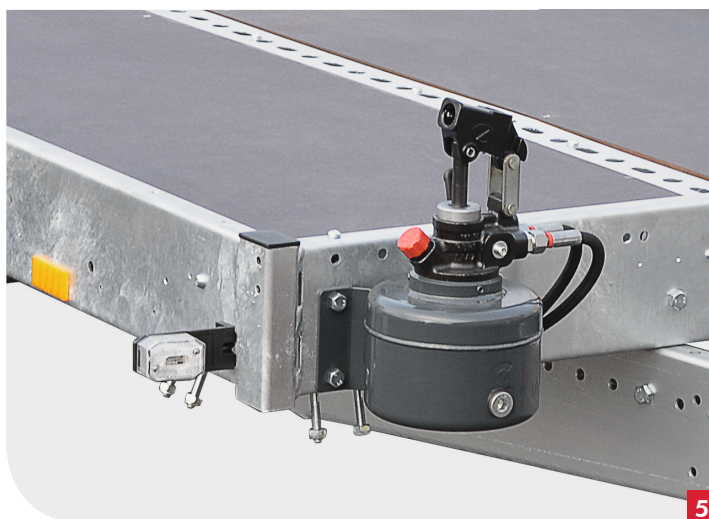

Loading without additional entry ramps or rails – the extremely slight inclination angle of 5 degrees makes this possible.

100 KM/H

ANYTHING ELSE IS JUST NO FUN!

The WOM is equipped as standard with shock absorbers of brand manufacturers and thus prepared for speeds of up to 100 km/h. This trailer can be directly approved for speeds of up to 100 km/h at the licensing office.

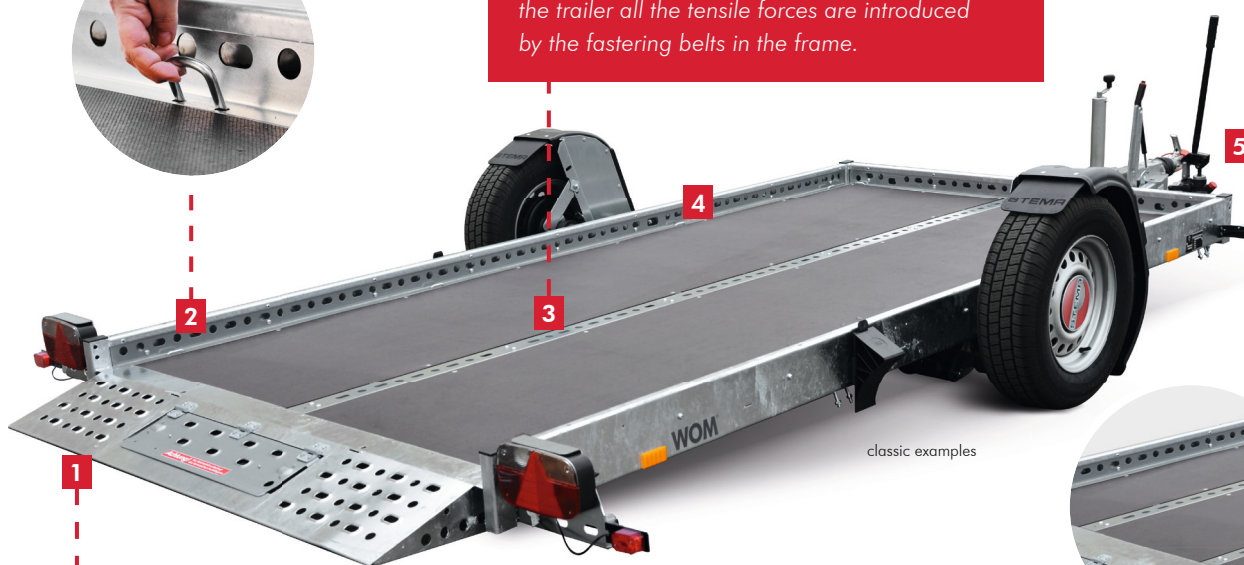

5

Pictures are classic examples and partly contain accessories.

Central lashing rail.

Through the direct fixing to the steel frame of the trailer all the tensile forces are introduced by the fastening belts in the frame.

- + high cover & high frame

MULTI-FUNCTIONAL.

The WOM is a genuine all-rounder.

The extensive and universal accessories e.g. railings, side panels or high covers with high frame protect your load and ensure convenient transportation. The WOM series can now be upgraded with high quality and elegant aluminium side panels.

Steadfast.

The secret of the cradle-style wheel holder is its ideal exploitation of the gravity of your motorbike. You simply push the motorbike over the tilt mechanism into the holder. The motorbike is firmly secured in place by its own weight. The motorbike must additionally be secured with belts for transportation.

HOW IT WORKS
cradle-style wheel holder (optional)

classic examples

Optional equipment:

- side panels of steel or aluminium
- high cover & high frame
- variabel wheel beam
- cradle-style wheel holder
- drawbar box

ACCESSORIES SHOP

Discover original STEMA accessories at www.stema.shop

Pictures are classic examples and partly contain accessories. Illustration displays WOM with aluminium tailboards.

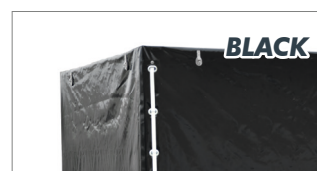

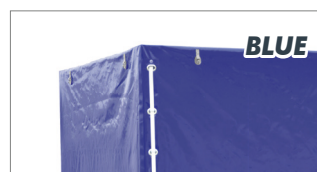

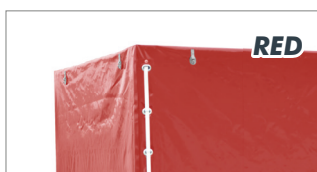

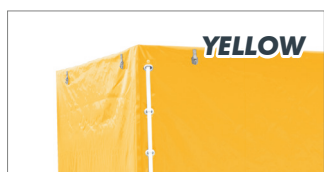

Individual and fitting.

Our cover and installation material is long-run tested, extra thick and tearproof. The cover protects your load from any weather conditions. All covers for your trailer are produced individually and fitted by STEMA. You have the choice: seven colors are available.

Effective advertising.

Design your own printed advertising on the tarpaulin cover. Upon request we can supply you with customised printed advertising covers that are tailored to your proposed design. Choose a colour for the tarpaulin cover and place your logo, your slogan or photo motif at the desired position. Your STEMA dealer will be happy to advise you.

RANGE

Der Anhänger

Doubly sure.

Through additional check valves on the hydraulic cylinders of the axes a sudden lowering of the loading surface is prevented loss of pressure of the hydraulic. Thus, the guideline* for **commercial use** is maintained.

INNOVATION AT THE PRESS OF A **BUTTON**.

We offer you the **innovative electrical pump** as the luxury version. No matter whether it is by radio or electric remote control - the WOM lowers itself at the press of a button through the **12 V hydraulic unit**.

The **emergency manual pump** and the **starter cable** that can be supplied as an accessory, depending on the equipment version selected, provides additional security.

STS O2 18-35-17.1 with electrical pump

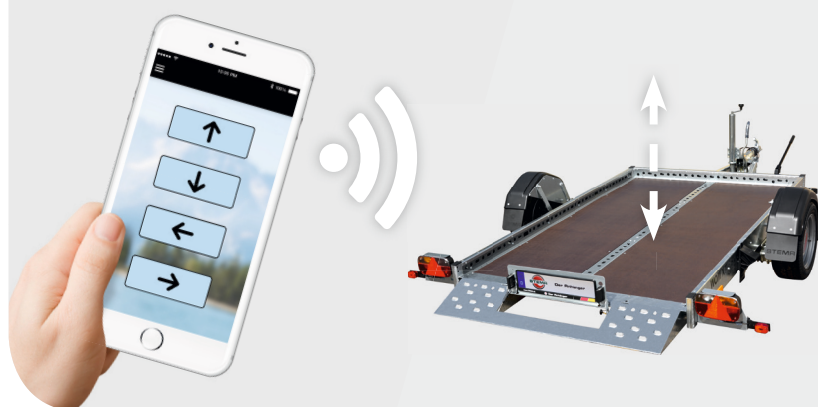

- 1 drawbar box with battery and pump unit
- 2 electric remote control
- 3 radio remote control
- 4 bluetooth receiver with Smartphone app (accessories)

NOW: TILT AND CHARGE STATUS VIA SMARTPHONE-APP.

Simply use your Smartphone! Always be in control. Using an app and the new Bluetooth receiver, which is simply installed on the trailer, operate the loading bridge at the push of a button.

By the way: Checking the state of charge of your trailer battery becomes child's play. The app sends the data to your smartphone. STEMA offers this technology for all hydraulically controlled transporters. The Bluetooth receiver is also available in the STEMA accessories shop.
